Communication par excellence

A certificate of competence short course

Would you like to ensure that your business writing and verbal communication skills add to the professional image of your company? Let's take your communication skills up a notch!

What is the focus of this course?

This practical and interactive online course focuses on the finer skills required for effective and confident written and spoken communication in English. By producing high-quality written communication, you automatically contribute to the professional image of your business. Similarly, if you can overcome your self-consciousness and easily express yourself in English, even if it's your second or third language, you could feel more heard and content in the workplace. This course aims to assist you in improving your ability to communicate clearly and confidently. In this course, you will:

- have the opportunity to write a range of clear, concise, and professional texts
- explore language use, tone, sentence construction, clarity of purpose, audience needs, and the writing process
- gain the skills and confidence to communicate purposefully and effectively in both spoken and written English

What are the prerequisites?

You will need a computer and reliable web browser to run our online learning platforms (MS Teams and SUNOnline) and you need access to a stable internet connection to connect to the live online sessions. You should be familiar with creating electronic documents.

Who should attend and what are the career benefits?

This short course is aimed at people who do not speak English as a first language, but who function in a predominantly English working environment. If your job requires you to do some writing every day and if language was not the main focus in your studies, then this course is for you. To ensure optimal learning, we limit the number of participants. The live online sessions are complemented by online learning, and certain aspects of the course are assessed.

When and how will this course take place?

Our courses combine live online sessions, facilitated by the course presenter, with self-directed online learning. This course opens before the first live online session and closes well after the last live online session. This allows enough time for you to activate your SUNOnline presence before the live sessions start.

	Live online sessions (10:00 to 12:00)	System opening and closing dates	Applications close
Offering 1	28 April, 5, 12, 19 and 26 May	21 April to 9 June	7 April
